BA International Management

Study models: CLASSIC | DUAL

WR | WISSENSCHAFTSRAT

ACQUIN

The BA in International Management provides students with application-oriented, future-proof, broad, and well-founded knowledge in the field of business administration, with a special emphasis on international management. The degree program focuses on issues and challenges present in our global economy today. Subjects such as Business and Sustainability, Corporate Culture and Diversity, and Business Psychology optimally prepare students for a successful career in international business. The program includes elective subjects that help students to individually tailor their expertise, providing them with a keenly honed professional profile and future-oriented competencies in fields such as Industry 4.0, innovation management, entrepreneurship, or digital transformation. With targeted language training, students are prepared for a tightly integrated semester abroad in the fifth semester at one of the VICTORIA's cooperating universities, for example in Dublin.
